MAY-JUNE 1954 HENRY CLAY SCHOOL, ARLINGTON, VIRGINIA VOL. XIX NO.6

PICNIC ENDS BOWLING SEASON

WEDDING BELLS RING

Miss Martha Wilkie, fourth grade teacher at Clay, is to be married to Major Mercer Longino on July 3 at Fort Myer Chapel.

Miss Wilkie's home is in Cambridge, Massachusetts. She has taught one year in the Arlington County Schools. Major Longino's home town is Provencal, Louisiana. He is stationed at the Pentagon.

PARKERS GO TO BOLIVIA

Mrs. Gail Parker, secretary, and her two children, Gail Maureen and Timothy, will fly to LaPaz, Bolivia this summer. They expect to be there for two years.

Mr. Edlow Parker, her husband, has been in South America since February. She will be with him.

The annual picnic of the bowlers and patrols was held at Henry Clay on May 28. It was a big success. In all there were 128 boys and girls at the picnic.

There were lots of games and other activities from three until five o'clock. These were supervised by the playground directors and parents.

CLAY ENJOYS VISITOR

Tony Hansen, a friendly ten year old boy from San Salvador visited Clay School recently. His father works for the U.S. government and was sent to San Salvador. Tony attended a Spanish speaking school. He spoke Spanish well.

The classes enjoyed seeing coins and silver trinkets from San Salvador.

Some classes had been studying Central America so they were especially interested in hearing Tony tell about his former home. He was very kind in answering many questions.

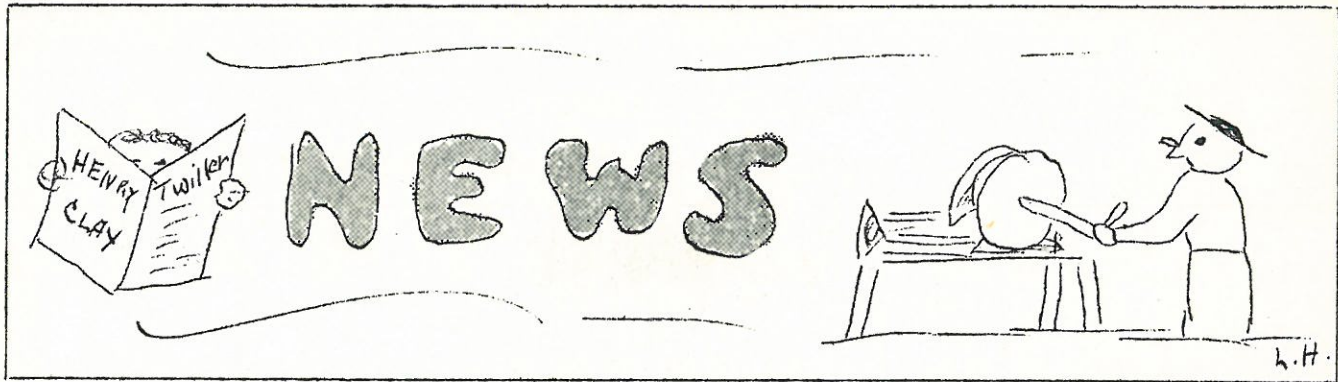

Tony will soon go to Brazil to live.

At five o'clock the children started to go into the cafeteria. All were quite hungry by this time. They were served hot dogs, potato salad, carrots, potato chips and apple sauce. For dessert they had icecream and cookies.

PUPILS GO TO GREECE

Two pupils in the sixth grade will go to Athens, Greece during the summer. They are Michael Hemovich and Larry Forsyth. Their fathers are in the army.

The boys are quite amazed and excited that two boys in the same school and class will go to the same city and country.

PUPILS HAVE PERFECT ATTENDANCE

Henry Clay is proud of the boys and girls who had perfect attendance during the session 1953 - 1954.

These pupils are: Mike Coates, Beverley Armstrong, Rocky Hansen, Gerald McBride, Peter Bryan, Howard Brock, Nancy VanTuyt, Calvin Edwards, Nancy Plank, Peggy Crunkilton, Mike Dunmire and Donald West.

FIFTH GRADE HAS CARE DRIVE

The big project for the fifth grade this year was to bring money for CARE. The two rooms brought \$37.50. This was enough money to send three ten dollar packages of elementary books to the children in Korea, and also a seven-fifty order of books.

In past years the fifth grade has received many letters of appreciation from foreign countries. One letter was written by a teacher who had studied in the U.S.

PUPILS ENJOY MUSIC

The pupils of the fifth and sixth grades enjoyed hearing two of the parents, Mrs. Harp- ham and Mrs. Dunham play the violin and the piano.

They played four pieces, Laughing - Ca- price, two waltzes and a Mexican Dance.

LAST GROUP REPORTS

The groups in Miss Pully's sixth grade had their last program on conservation.

The chairman of the group was Janet Cox and their topic was "Wild- life". They had reports, poems, dances and a pantomime.

The girls worked hard and painted their own scenery and made their own costumes in which they presented the pan- tomime, "Teddy Bear's Picnic".

Four of the girls met at Jane Siples' house and with the help of her father made a bird feeder to present to Miss Smith for the use at school.

CLASSES VISIT ZOO

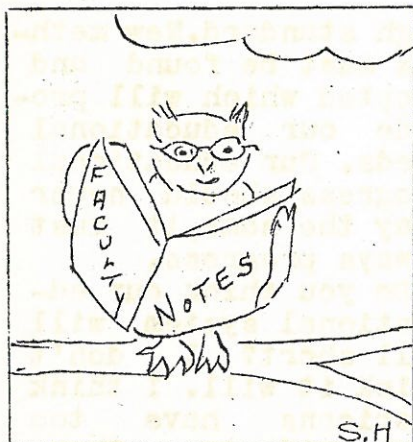

The primary grades at Clay visited the zoo in Washington, D.C. They carried their lun- ches and had a wonder- ful time. They waited anxiously for the bus that morning. It seem- ed that it would never get to Clay that morn- ing. At last it arriv- ed and everyone got on to take a long ride to Washington. They went by Lincoln Memorial. In the distance they saw the Washington Monu- ment and the Capitol.

The children were di- vided into small groups. Each group had a mother with them. All went to see the ani- mals they were most in- terested in. They liked the bears, monkeys and the birds. Many enjoy- ed the elephants, seals and the giraffe.

They ate lunch. Then they saw some animals they had not seen in the morning. It was then time to go back to school.

HAPPY VACATION

TO ALL

Mrs. Faith Armington, first grade teacher at Clay, is leaving Arlington to be with her husband who is working on his PhD at Penn State University. She will probably be teaching there next year.

Miss Martha Newland, third grade teacher at Clay, will teach at Kingsport, Tennessee next year. This will be close to her home.

Mrs. Virginia White, also first grade teacher at Clay, will be a Music Helping teacher in Arlington County next year.

Dr. Allard, the good neighbor across the street from school, brought the teachers a large, cooled, delicious watermelon for dessert. They were impressed with the "Real Southern Hospitality."

PATROLS REWARDED

The Lyon Park Woman's Club gave a check to help pay the expenses of the patrols who are going to camp this summer. This camp helps the children to be better patrol leaders next year.

The Club gave thirty dollars so this will be six dollars for each of the children. The five pupils going are Barbara Frost, Philip Bray, David Culbert, Billy Ty-singer and Dick Morris.

SPEECH

(Continued from p. 6)

trol our tempers and only say things about others views in a way that we are willing to have them say to us we might avoid quarrels. If all countries could do the same we could possibly avoid wars.

When our ancestors first came to this new world they had to struggle for the freedom we love, let's try to keep it.

"When you have spoken the word, it reigns over you. When it is unspoken, you reign over it."

Arabic Proverb

"Pave your way to success with study, sweat, selflessness."

The P.T.A. installed their officers for 1954-1955 at the meeting in May. They were: President - Mr. R. C. Larkin; First V.P. - Mr. T.L. McCrary; Second V.P. - Mr. Robert Culbert; Third V.P. - Mr. E. Azar; Secretary - Mrs. Richard Morris; Treasurer - Mr. Harry Hubbard; Historian - Mrs. Henry Bray.

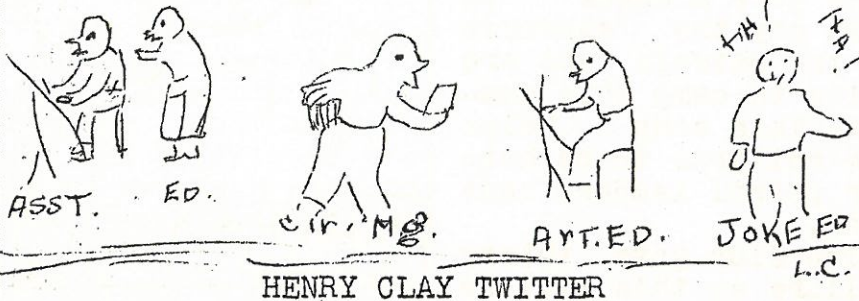

The Room-Prizes for the May P.T.A. Meeting were won by the following grades - Mrs. Moss' - First Mrs. Flowers - Second Miss Holmes - Third.

PATROLS RECEIVE CERTIFICATES

All patrols received certificates from the AAA for their meritorious services during the year 1953-1954.

The patrols liked the certificates very much and many of them are going to have them framed so they may keep them.

WILL OUR EDUCATIONAL SYSTEM FALL SHORT?

Throughout the years our educators have been trying to satisfy our educational requirements. Looking back at the history of our great country, we can see the wonderful progress which has

been made in our educational system. This is not only true as a nation, but also in the world leadership of our Country. Although there are many reasons for this, education is important.

Since we can see that fact, we must be sure to keep it at a

high standard. New methods must be found and adopted which will provide our educational needs. Our educational progress should never stay the same, it must always progress.

Do you think our educational system will fall short? I don't think it will. I think Americans have too much pride in themselves and their country to let that happen. I think and know that America will keep her educational standards high. For we know, an educated people will always be free.

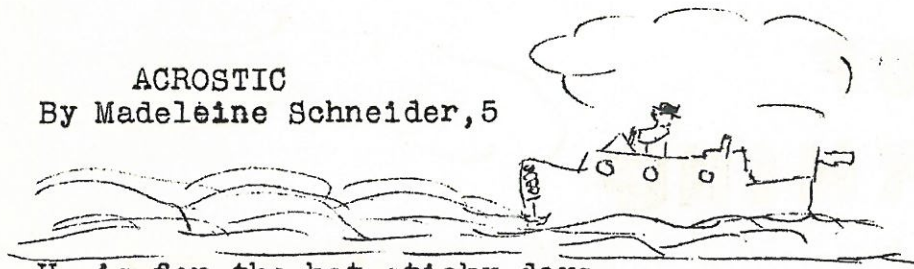

FREEDOM OF SPEECH

It would be hard to imagine how horrible life would be if we didn't have freedom of speech. In many countries this is true. Suppose our lives were threatened if we didn't accept the belief that the world just happened by chance when we know God created all the wonderful things in the world, or that we were forced to believe that the sun rises in the west and sets in the east.

We in the United States have freedom of speech but others do not, so let's try to keep it that way. I think that there are some things we can do. First we must realize everyone has a right (See Speech page 6)

ACROSTIC

By Madeleine Schneider, 5

H is for the hot sticky days,
 A is for the amusement parks,
 P is for the picnics we enjoy,
 P is for the parties we go to,
 Y is for sailing on a yatch.

S is for swimming in the water,
 U is for the umbrella tree to shade us,
 M is for the merry times we have,
 M is for the million things we enjoy,
 E is for the everlasting fun,
 R is for riding through the country.

WHY I'M GLAD I'M AN AMERICAN
 By David Culbert, Grade 5

I am glad to be an American because it is a land of freedom. I can choose my religion and the church. There is a Constitution, a Declaration Of Independence and a Bill of Rights to protect me. People have freedom to vote as they think best. I can say things I believe. I have a chance to become President even if I start out as a poor person.

There is an army and navy to protect everyone in time of war. I have a Bible to read. I can buy any book I want to. In the United States citizens can move around and visit anyone or place they want to. Each city has a modern police force to protect me. There are institutions for the mentally ill and for children who are orphans. Free public schools give education to all. I can attend any college I would like. Modern transportation takes me anywhere I want to go. There is lots of beautiful scenery to enjoy. I can get a job whenever I want to. There is a wide variety of jobs to choose from. In our Country there is always plenty of food for everyone. Lots of industries produce the products we need. Truly this is a great, free country. The brave men who wrote the Declaration of Independence said, "Here you have life, liberty and the pursuit of happiness."

SAFETY CONTEST HELD

The Student Cooperative Association had a safety poster contest. Anyone who wanted to could enter the contest. The judges were Mrs. Wall, Mrs. K and Miss Newland. The winning posters were drawn by Susan Hoagland, first prize; and Ann Gayler, second prize.

PUPIL RECEIVES REWARD

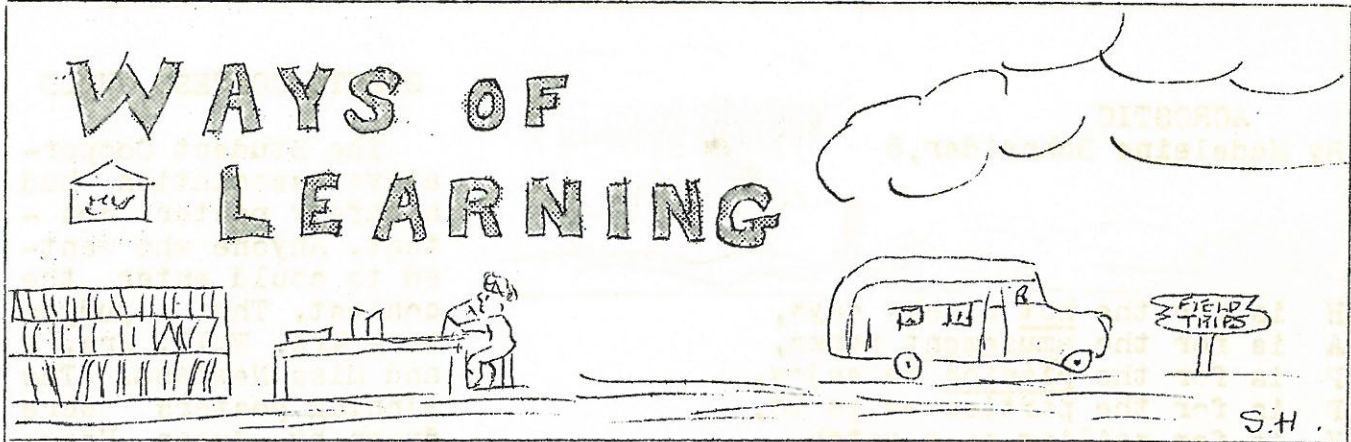

The Izaak Walton League invited five pupils to visit at their meeting in May. The pupils were all from Arlington. They had entered an essay contest on conservation.

The Izaak Walton League defends wildlife, water, soil and forests.

The pupils - Janet Williams, Henry Clay; Curtis Holcomb, Swanson; Lance Parker, Stratford; Ricky Myers, James Monroe; and Sally Smith of Washington Lee, all got one years subscription to Virginia Wildlife magazine.

PICTURE MAPS MADE

For an art and geography lesson the children in Mrs. Moss' fifth grade made a map of the United States. They filled them in with crops, trees, flowers, and sports.

PUPILS VISIT BAKERY

Mrs. Keyser's first grade took a trip to the Bond Bakery in Washington, D.C. The children saw the dough being mixed in big barrels. They saw the big ovens which bake the bread and rolls. The dough was carried from place to place in little open cars.

What a big surprise when each child was given a loaf of bread and a package of bread crumbs to take back to school.

Some of the boys and girls had the bread and meat loaf which used the bread crumbs for dinner that night.

PUPILS STUDY STATES

Mrs. Mahan's fifth grade has been studying the States. They made a booklet of the States, their flowers, birds and capitals. In the study Connie DeCederfelt went to the Clarendon Library and got lots of books for the class to use. They were very helpful.

WRITING CONTEST HELD

The pupils in Mrs. Moss' fifth grade wanted to improve their handwriting. They decided good handwriting was very important. All the class practiced for about six weeks. Then each pupil entered a sample of his best handwriting in the contest.

Miss Smith and Mrs. Parker judged the writing. They selected Susan Hoagland's as the best, Barbara Frost's as second and Dick Crunkilton's as third. They received an ever-sharp pencil to help them improve their writing even more.

All the class agreed that they should always make their writing "their best".

CLASS HAS SCIENCE TABLE

Mrs. Armington's boys and girls in the first grade have a science exhibit in their room.

They have Spanish Moss, an air plant, cat-o-nine tails and a King crab. Most of the things are from Florida.

INSECTS STUDIED

The pupils in Mrs. Flowers' second year primary have been studying about the butterfly and the moth. They saw movies about them and talked about them. They learned that the butterfly flies in the day time and the moth in the night time. When the butterfly stops flying his wings always go straight up but when the moth stops flying his wings stay as they were when he was flying.

SPEECH

(Continued from p.4)
to his or her own opinion and they are free to express their own thoughts whether we agree or not. Second, instead of losing our tempers when others disagree we should remember the Golden Rule and not say anything to them unless we want them to say the same thing to us.

If we learn to con-
(See Speech page 3)

SIXTH GRADERS LEAVE CLAY

There are sixth-eight sixth graders to go to Thomas Jefferson Junior High next year. They give Clay a farewell message in poetry.

FAREWELL HENRY CLAY

By Walton Pettit, Grade 6

The closing of school is getting near,
So we'll say farewell to Henry Clay,
Farewell to our teachers who seem so dear,
We thank them for their patience each day.

Farewell to the nurse, librarian, too,
We thank you for the guidance you gave,
Thanks Mr. Prender for all you do,
All of your jokes are too hard to save.

Farewell, Miss Smith, principal and friend,
Thanks for the fun while batting the ball,
Thanks for the help on the Twitter you'd lend,
Thanks for making the school for us all.

Farewell, Mrs. Parker, thanks for your smile,
Thanks for the help you're given each day,
Farewell for bowling, down the aisle,
Farewell to our school, farewell Henry Clay.

FIELD TRIP TAKEN
BY CLASS

The pupils in Mrs. Moss's fifth grade visited the Pan American Union Building and the Bureau of Engraving.

The class has been studying Latin America. Mr. Robb, the guide, at the P.A. Building told the group about the early Indian civilization in the Latin American countries. In the patio were many of the different plants of the warm countries. The class saw a ninety year old parrot. The guide said some of the parrots live to be 150.

At the Bureau of En-

graving the children saw how paper money is made. The life of a paper dollar is three to nine months.

On the way home the class enjoyed a third treat. They saw the Silver Star, an ocean liner which will make regular trips between Washington, D.C. and Bermuda.

The trip was not only interesting but very educational.

SCHOOL CLOSES

JUNE 12

BANKER VISITS CLASS

Mr. Robert Christ, a former teacher at Clay who works in Old Dominion Bank, came to talk to the pupils in Miss Pully's sixth grade.

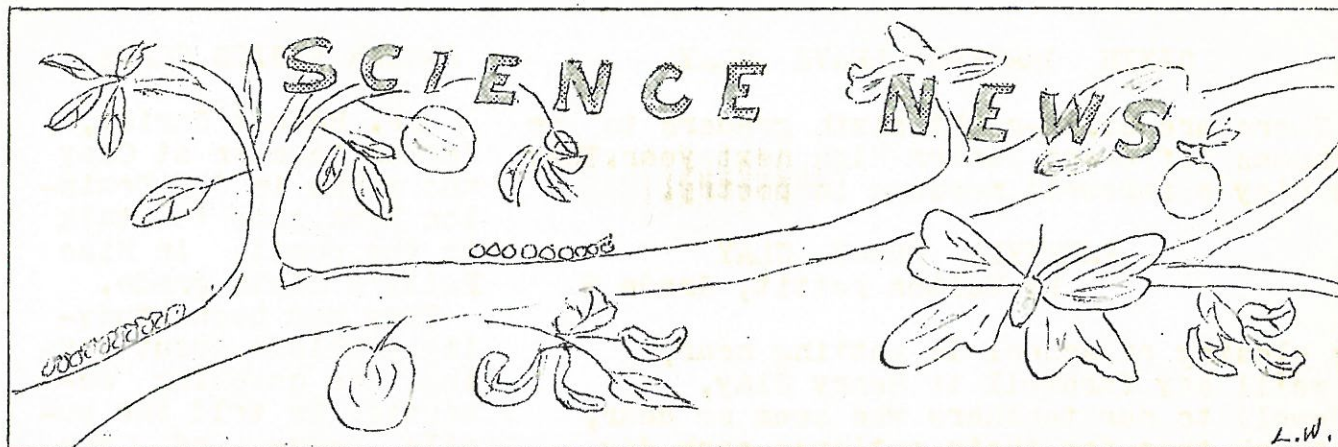

They had been studying problems about savings and checking accounts. He told the pupils some of the things a calculating machine can do and even brought one to show the class. He told them it could add, subtract, multiply and divide. So, of course some of the children wished to buy one to do arithmetic for them. Mr. Christ explained that the person who works the machine has to have an education and know all about decimals.

The pupils were interested and asked many questions about the history of safes, the measures used to protect them, some of the types of locks and about the night deposit box.

PUPIL ON TV

Robert Colio, a pupil in Mrs. White's first year class, was a birthday guest on Pick Temple's television show Sunday, June 6. It was Bobby's seventh birthday.

Bobby saw many interesting things at the television station.

THE SEA

By Lolly Watson, Grade 6

Sea Oh! beautiful sea,
 Show me some of your secrets,
 Show me your treasures,
 Show them to me,
 Show me your secrets Oh! beautiful sea.

Sea Oh! beautiful sea,
 How come you toss my ship so?
 Are your waters hitting against the rocks,
 And tossing my boat to and fro?

When I stand in my boat and look into the
 water,
 You seem to be transferring a message to me,
 as if I were your daughter,
 I try to understand what you say,
 Because you roar in a gentle way.

Sea Oh! beautiful sea,
 Why are you so big?
 Your waves are dashing against my boat,
 Is this one of your treasures, the waves,
 Oh! beautiful sea?

When on shore you dash against the rocks,
 And send up a shower of mist,
 This is one of your treasures you showed
 to me,
 Oh! wonderful and beautiful sea.

PUPILS WATCH TADPOLES
GROW

Freddie Kines a pupil in the fifth grade brought some tadpoles to school for the pupils to enjoy.

Some of the tadpoles have just hatched. All of them have long tails. A few have two or four legs. The class watched the tails disappear. Change-

I WISH I HAD A
TURTLE

By Nancy Dunham, Gr. 4

I wish I had a turtle,
 I'd play with it all
 day,
 My turtle and I would
 be good pals,
 In every single way.

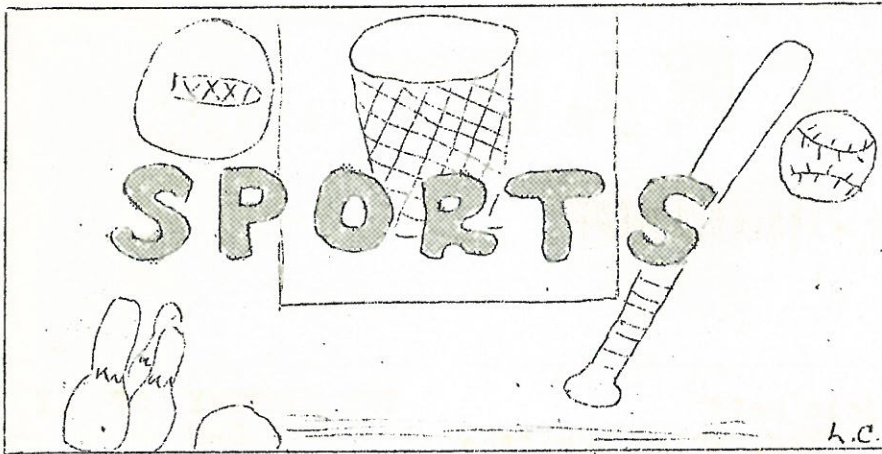

And when the day was
 over,
 And night was drawing
 near,
 I'd put my little
 turtle,
 In his water clear.

So then my little
 turtle,
 Could sleep all
 through the night,
 And wake up very
 happy,
 In the morning light.

ing from tadpole eggs
 to a grown frog is
 called complete meta-
 morphosis.

FOR SALE - TADPOLES
 2 for 15¢
 Frogs 10¢ with tails
 Frogs 15¢ without
 tails

BASEBALL

By Mike Coates, Grade 5

Baseball is lots of fun, whether you make a
out or a run,
The pitcher winds up and throws the ball,
You hit it! and into the right field it will
fall!
That's good usually, for a double,
But if you try for third you'll get into
trouble!
For everyone in the crowd, will jump and
shout,
As the third baseman tags you out!

If you miss, when at the ball you swing,
"Steerike one!" the umpire will sing,
Hit a homer is what you're trying to do,
But you miss again, and it is strike two!
If the ball's right across and you don't
swing, the "ump" will shout,
"Right across! You should have swung! Strike
three, and you're out!"
Everyone in baseball fun may share,
But it's more fun if everyone plays fair.

BOWLING

By Beverley Armstrong, 6

Roll the ball down the alley,
Maybe you can start a rally,
If you roll it in the right place,
You will have nothing but a spare.

A strike is the best you can get,
You don't have to roll the ball like a jet,
Just take your time and roll the ball,
Then you are sure of getting them all.

PUPILS LEARN NEW
GAME

The fifth grade has learned a new game in physical education called "Newcomb." It is a game which leads up to volley ball. The players are divided in to two teams. No one can be the star. Every person has a certain area to play. No one can leave his position. The teams must rotate when the ball has been served by the other team and it is their time to serve again. The ball is pitched back and forth across the net until one side fails to catch it. Only a "chest throw" is legal. The game is lively and everyone gets to play.

GOOD MANNERS WITH
A BALL

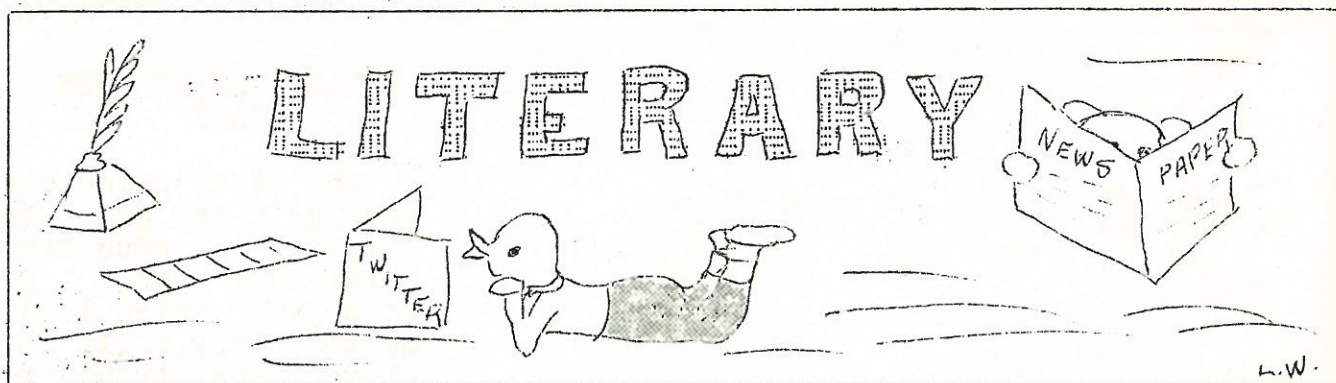

By Carol Frisbie, Gr. 4

When you go out to
play dodge ball,
Don't push people and
make them fall.

Don't sock the ball
way over the fence,
Or you'll have to sit
on the bench.

When you play dodge
or another game,
Don't hit too hard or
you'll be to blame.

A GOOD SPORT IS
ALWAYS POPULAR.

A DREAM

By Brenda Anderson, 5

Once there was a little girl who was very lonely. She had no sisters or brothers to play with. She often thought while playing with her dolls, just how wonderful it would be to have someone to talk to and to play with.

One night she had gone upstairs to go to bed and was talking to her teddy bear, when she fell asleep and dreamed she was a beautiful princess living in a big castle. One day she was given permission to go for a walk in the forest. As she walked in the forest she decided to pick flowers. She heard a noise, it wasn't a big noise or far from the path. So she decided to see what it was. She turned around and saw a little squirrel eating a nut.

"Good morning!" said the little princess.

"Good morning," said the little squirrel.

"I'm taking a walk in the forest," said the little princess. She has a big curl on

Join me?"

"Yes, thank you," the little squirrel said.

So off they went and pretty soon they had met a lot of friends. They were all singing, dancing and having a lot of fun. She said good-bye to all her little friends in the forest and was on her way back to the castle when she heard her mother call, "Nancy it's time to get up for school."

MY TRIP

By Klaus Steinhorst, 2

We went to the zoo. I liked the monkeys and the skunks. I enjoyed the trip. The lemonade and the cookies tasted good. I would like to go with my class again.

MY BABY COUSIN

By Swaim White, Gr. 2

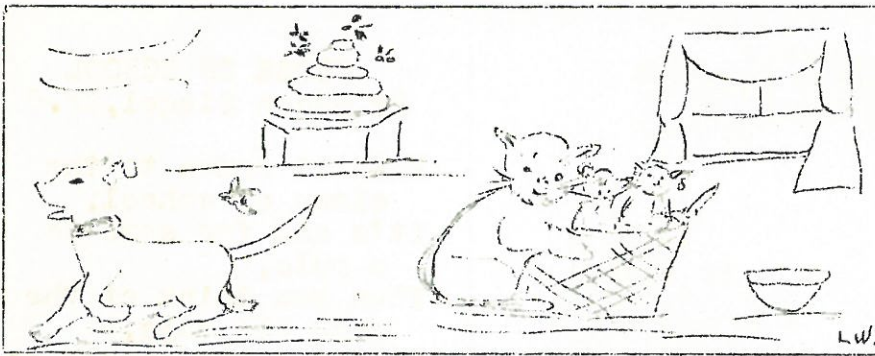

My baby cousin is about six weeks old. She drinks milk and eats cereal. She can smile. Sometimes she cries. She has a big curl on the top of her head.

THE MYSTERY OF MY CAT

By Claudia Suiters, 5

One night my mother asked, "Where is Simba our cat?"

I thought that he was outside playing. So dad called him. He did not come. Everyone was really worried. The next morning the neighbors said that they had not seen Simba. I kept on searching but I did not hear or see anything of my cat. About two weeks something happened to me that frightened me almost stiff. I got up and went into the bathroom to get a drink of water. I happened to look downstairs and I saw two great big glowing spots. I thought maybe I was still asleep. I shook my head but I still saw the big shining eyes. I just knew it was Simba. Just then the eyes disappeared. I turned on the lights. No cat was there. Was I dreaming when I saw the eyes. I did not know. Was I wanting to see my cat so badly that I just thought I saw his eyes. It will always be a mystery to me.

MY LITTLE DOG

By Donald Lathen, 4

I had a little doggie,
His name was Boe,
Then one day,
I let him go.

He ran and ran,
He was so free,
Then one day
He snapped at a bee.

And the bee did
sting,
Just so, so, so,
He stung so hard,
It hurt little Boe.

And over the hills
He went toward home,
Never again
To bother the bee's
dome.

SUMMER IS HERE

By Carol Frisbie, 4

The grass is green
and the flowers
bloom,
While many a man
becomes a groom.

The children play and
are happy all day,
The sounds of their
voices are quite
gay.

The bears in the
woods go after the
honey,

OUR CAT

By Jennifer Kidney, 2

Our cat Mittens
Had seven white
kittens.

She drank all of her
milk,
Her coat was smooth as
silk.

BE FRIENDS WITH
SAFETY

By Peggy Crunkilton, 4

Be friends with safety,
Always be sure,
If you are rich,
Or if you are poor,
Always obey your
safety rules,
At home, at play, at
school,
If you're not friends
with safety rules
You had better stay
inside,
If you are friends
with safety rules,
You will be able to
stay alive!

DOING RIGHT ALWAYS
BRINGS HAPPINESS.

But when they get stung
they don't think it's
funny.

CONSERVATION

By Jane Siple, Gr. 6

Conservation means
conserving minerals,
soil, forests, waters,
These are parts of
natural resources
including animals
and flowers.

Under human resources
we find health and
education,
Cultural heritage,
governing ourselves,
safety and recrea-
tion.

Forest fires are among
our worst enemies of
conservation,
You can prevent them
by putting your fire
out while on your
vacation.

Cultural heritage was
lost for awhile then
we began to find it,
We found it did a lot
of good and couldn't
be without it.

THE LAND OF PLAY

By Susan McDonald, 3

When I shut my eyes,
And go away,
Far off into the land
of play,
I see, oh! such marve-
lous things,
Like little brooks
and lemonade springs.

" When character is
gone, all is gone, and
one of the richest
jewels of life is
lost forever."

MR. WIZARDS SCIENCE SECRETS

By Don Herbert

Mr. Wizard's book has over 150 experiments that you do at home. Air pressure, vacuum, gravity, heat, oxidation, sound, vibration, magnetism, electricity, and many other kinds of experiments are found in this book. First it tells in simple form how to do the experiment then it tells why.

Barbara Frost, Gr. 5

RODDY MEETS THE CIRCUS

By Mabel Betsy Hill

Roddy was a little eight year old boy who had no friends his age. All the boys and girls were too old or too young. But in the end he finds a friend named Tad. He was very happy when he had a friend.

Nancy Hall, Grade 3

READ ALL YOU CAN

THE CAT THAT WALKED BY HIMSELF

By Rudyard Kipling

The Cat That Walked By Himself is a legend of how the cave man tamed the wild animals. Taming the dog, the horse, and the cow was not so much trouble, but taming the cat the cave man had to make him three promises. To this day cats are tame only when people remember to keep these promises.

Etoile Davie, Grade 4

THE PANAMA CANAL

By Bob Considine

This book tells about the railroad across the Isthmus of Panama. There were several attempts to make a canal and this book tells about them.

Lee Dayton, Grade 6

IF YOU WANT TO
BE HAPPY DO SOME-
THING FOR OTHERS.

CLOSE OF SCHOOL

By Susan Siegel, Gr. 6

When it comes to the close of school, It's sad for some as a rule, Then you think of the good old days, Of times you shared in the primary grades.

But when it's time to close the school, And sixth graders leave their precious school, All that work was worth a lot, To Junior High they'll have to trot.

BASEBALL

By Duncan Higgins, 4

I think baseball is so much fun, I can't make one home run!

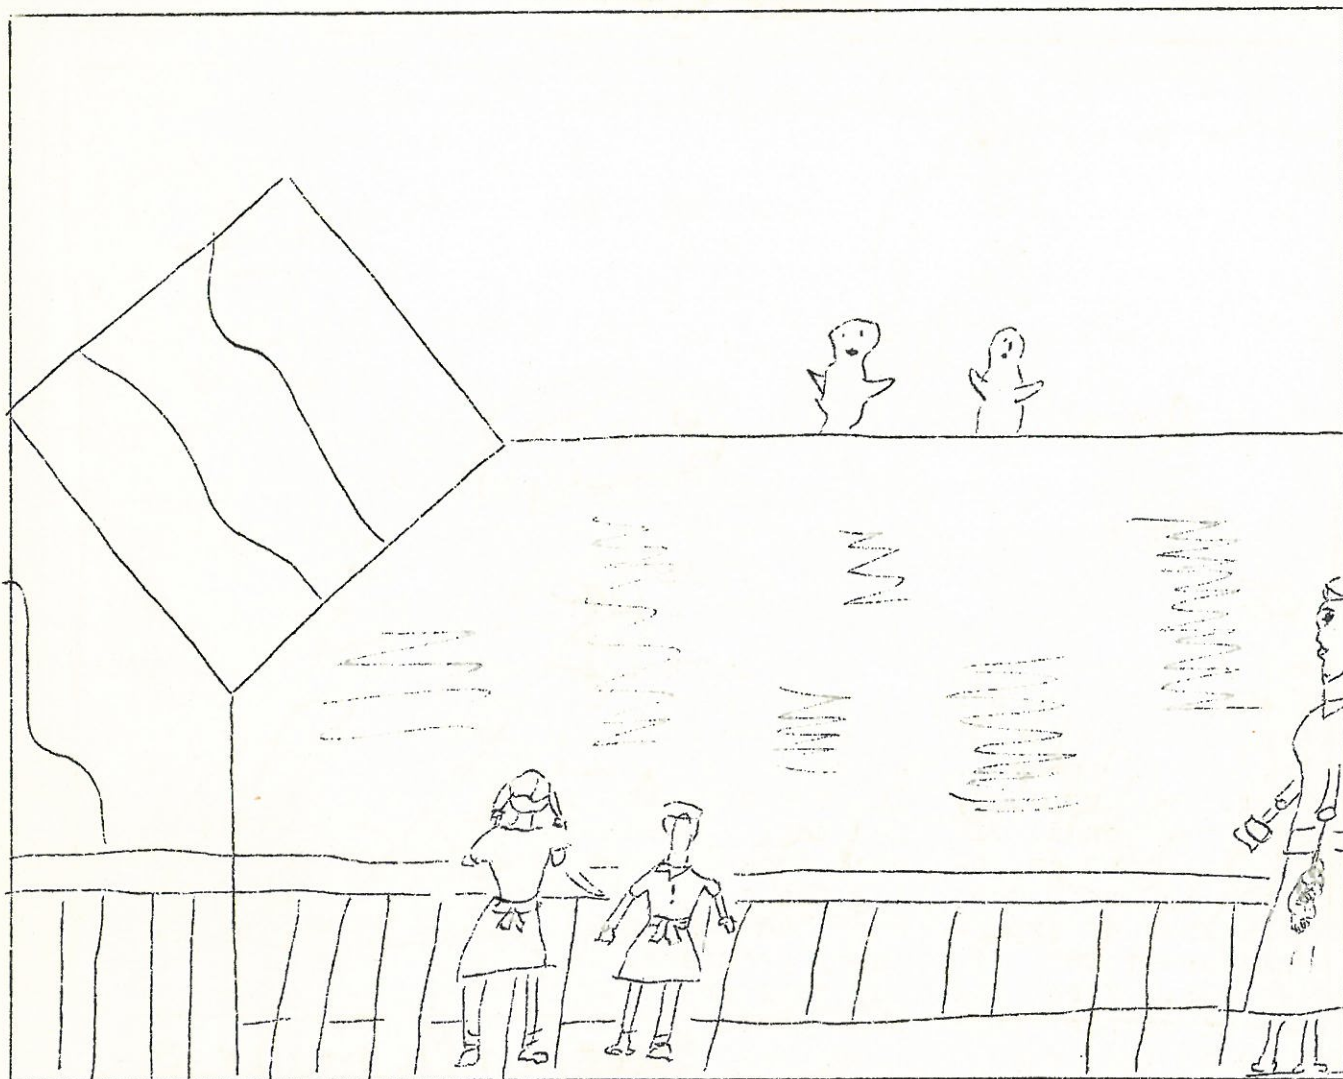

I can make two strikes and a ball, But I can't make a walk at all.

PUPILS LEARN ABOUT SOUND

Mrs. Virginia Workman, a helping teacher, taught the third grade at Fillmore about sound.

They learned that sound can go in waves and that the outer ear is shaped like a funnel. Since then the class has been trying to find out more about sound.

PRIMARY NEWS

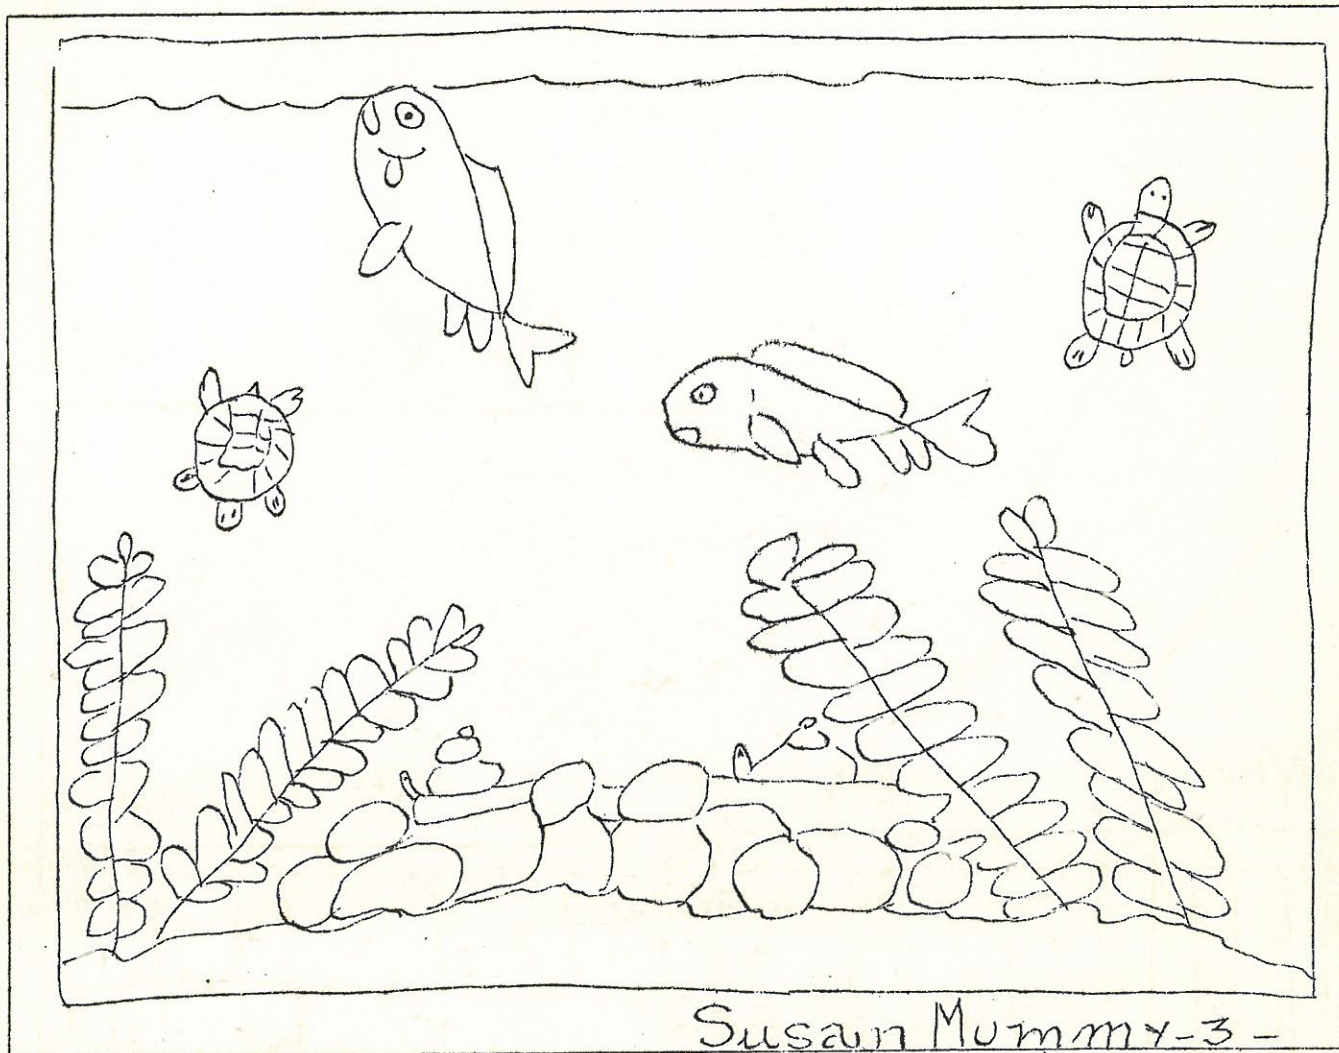

PUPILS VISIT ZOO

THE THIRD GRADE TOOK A FIELD TRIP TO THE ZOO. THEY SAW MANY ANIMALS AND LEARNED SOME INTERESTING THINGS ABOUT THEM. THEY SAW SOME SEALS AND HOW THEY PLAY WITH EACH OTHER. THEY FOUND OUT THAT THEY LIKE FISH TO EAT AND THAT THEY STAY IN THE WATER MOST OF THE TIME. THEY WERE TOLD THAT THEY LIKE TO SHOW OFF AND THAT ONCE THEY LEARN A TRICK THEY NEVER FORGET IT. ONE TRICK THEY LIKE TO DO IS TO BALANCE SOMETHING ON THEIR NOSE. WHEN THE CHILDREN CLAPPED THEIR HANDS THE SEALS WERE HAPPY AND CLAPPED THEIR FLIPPERS.

Miss Newland's Third Grade

AN AQUARIUM

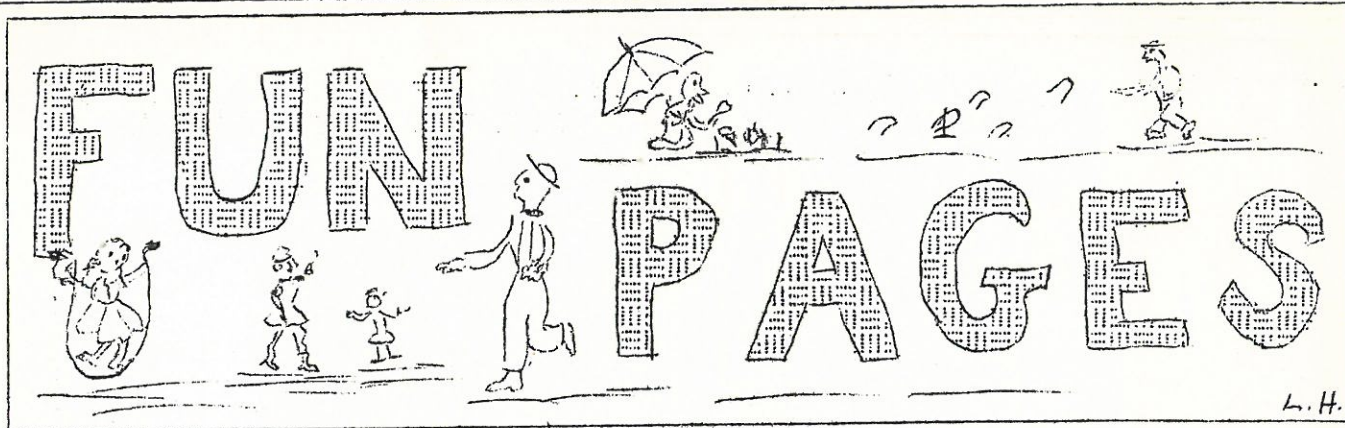

THERE ARE A LOT OF FISH IN THE WORLD. SOME OF THEM ARE LIVING IN AN AQUARIUM. THERE ARE MANY DIFFERENT KINDS. SOME ARE GOLDFISH, TROPICAL FISH, GUPPIES AND MANY OTHERS. SNAILS LIVE IN THE AQUARIUM, TOO.

PEOPLE WHO HAVE FISH MUST FEED THEM AND KEEP THE AQUARIUM CLEAN. SAND AND COLORED SHELLS MAKE THE AQUARIUM LOOK PRETTY. WEEDS ARE GREEN AND THEY MAKE THE AQUARIUM LOOK PRETTIER AND THE FISH LIKE TO EAT THEM, TOO.

MOST FISH THAT LIVE IN AN AQUARIUM ARE LITTLE FISH BUT SOME ARE BIG FISH.

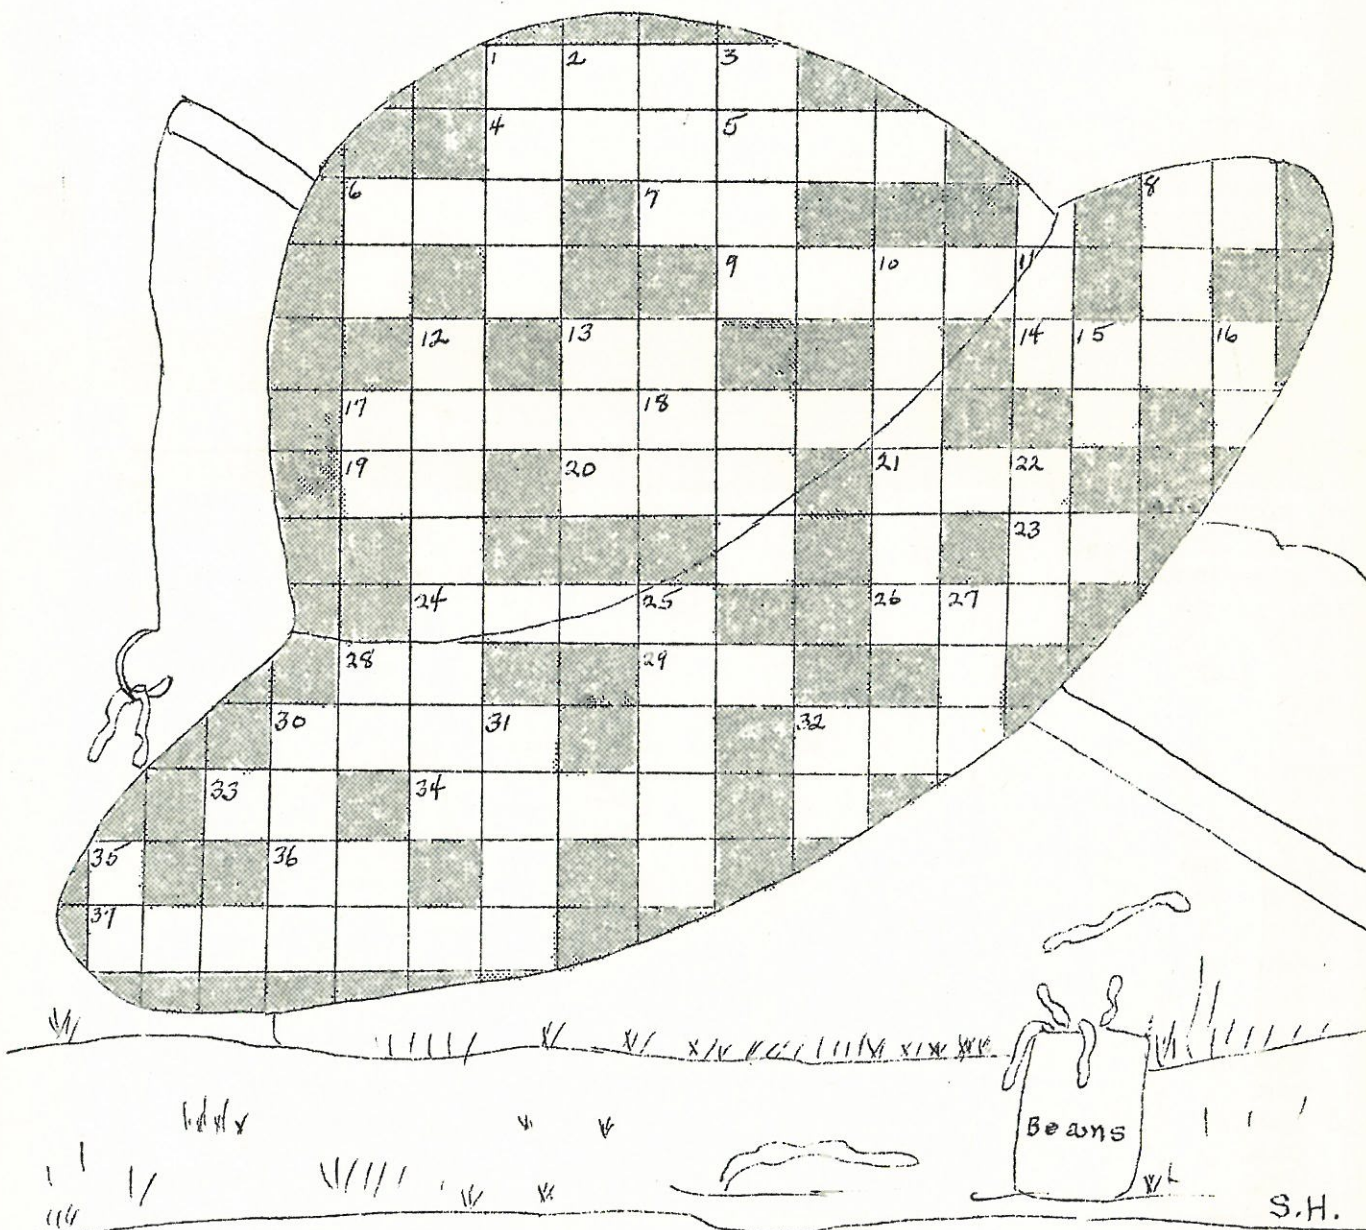

VACATION TIME IS ALMOST HERE. THE TWITTER IS HAVING A GOOD TIME FISHING. COLOR YOUR PICTURE AS YOU LIKE.

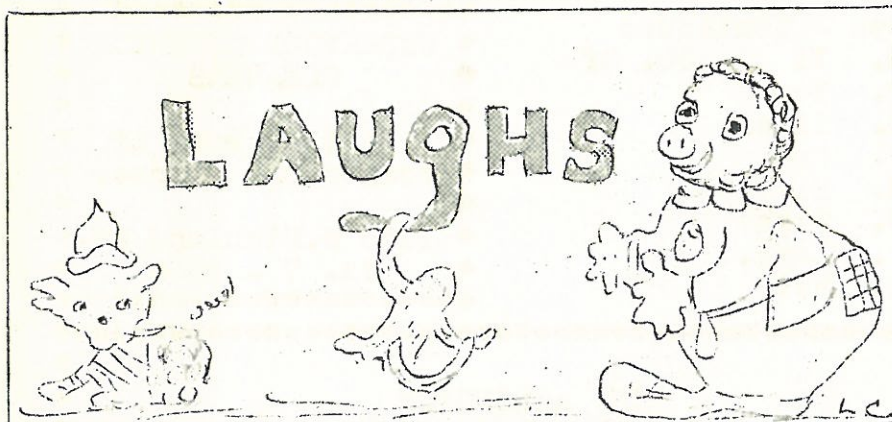

CROSSWORD PUZZLE

By Steven Zimmet, Grade 6

See Page 17

Mrs. K. (teacher 6)

Let's have a good noon hour from now until the end of the year. Just think next year you'll be eating with hundreds of other children and there will be trays bumping and all kinds of noise - and such a rush. Here at Clay you eat with all your friends in your grade and can have your own quiet conversations and jokes.

Dennis: Mrs. K, why are you making it sound so good? So we will be content to stay here another year?

Old Lady: (on the train) What was that station the conductor just called?

Passenger: I don't think he called a station. He just put his head in the door and sneezed.

Old Lady: Help me get my bundles quickly! This is Oshkosh!

LEARN TO SEE A JOKE.

Bill: You look like a million dollars.

Jack: How would you know? You have never seen a million dollars.

Bill: You look like something I've never seen before.

Doctor: Look here, don't you know my hours are from four to five P.M?

Bobby: Yes, but the dog that bit me didn't!

PUZZLE

Down -

1. He is safe at first
---- (Used in baseball)

2. A boy's name

3. Antonym for crying

6. In that way

8. A man's name

10. Second day in the week.

11. In that way

12. The national pas-
time.

13. Abbr. of seventh day
of the week.

15. Abbr. of post office.

16. Antonym for yes.

17. Abbr. of Virginia.

18. A note in the scale.

22. A pronoun

25. Multiply

27. Antonym for in.

PUZZLE

Across-

1. A round object.

4. A boy's name.

5. An antonym for none.

6. Abbr. for Save Our Ship.

7. Abbr. for Columbia University.

8. Short for Joanne.

9. Baseball is a ----.

14. Antonym for close.

17. What you have in the summer.

19. Mary is -- tall --
Jack. (Same word)

20. A kind of metal.

21. Antonym for night.

23. Where

24. A push

26. A pronoun.

28. "----", laughed John.

29. A pronoun for an object.

30. Make full.

32. What a batter wants.

33. A prefix.

34. Road

36. Abbr. for street.

37. Catching fish.

Down - Continued

28. A greeting.

30. What a fisherman gets.

31. Abbr. for Language.

32. A greeting

35. Belong to.

1. What bed has no springs?

2. Why did the boy take the ladder to school?

1. A flower bed

2. Because he went to high school.
